### 3. Definition of data protection terms

- 3.1 **Data** is information which is stored electronically, on a computer, or in certain paper-based filing systems.
- 3.2 **Data subjects** for the purpose of this policy include all living individuals about whom we hold personal data. A data subject need not be a UK national or resident. All data subjects have legal rights in relation to their personal information.
- 3.3 **Personal data** means data relating to a living individual who can be identified from that data (or from that data and other information in our possession). Personal data can be factual (for example, a name, address or date of birth) or it can be an opinion about that person, their actions and behaviour.
- 3.4 **Data controllers** are the people who or organisations which determine the purposes for which, and the manner in which, any personal data is processed. They are responsible for establishing practices and policies in line with the Act. We are the data controller of all personal data used in our business for our own commercial purposes.
- 3.5 **Data users** are those of our employees whose work involves processing personal data. Data users must protect the data they handle in accordance with this data protection policy and any applicable data security procedures at all times.
- 3.6 **Data processors** include any person or organisation that is not a data user that processes personal data on our behalf and on our instructions. Employees of data controllers are excluded from this definition but it could include suppliers which handle personal data on our behalf.
- 3.7 **Processing** is any activity that involves use of the data. It includes obtaining, recording or holding the data, or carrying out any operation or set of operations on the data including organising, amending, retrieving, using, disclosing, erasing or destroying it. Processing also includes transferring personal data to third parties.
- 3.8 **Sensitive personal data** includes information about a person's racial or ethnic origin, political opinions, religious or similar beliefs, trade union membership, physical or mental health or condition or sexual life, or about the commission of, or proceedings for, any offence committed or alleged to have been

committed by that person, the disposal of such proceedings or the sentence of any court in such proceedings. Sensitive personal data can only be processed under strict conditions, including a condition requiring the express permission of the person concerned.

#### **4. Data protection principles**

4.1 Anyone processing personal data must comply with the eight enforceable principles of good practice. These provide that personal data must be:

- Processed fairly and lawfully.
- Processed for limited purposes and in an appropriate way.
- Adequate, relevant and not excessive for the purpose.
- Accurate.
- Not kept longer than necessary for the purpose.
- Processed in line with data subjects' rights.
- Secure.
- Not transferred to people or organisations situated in countries without adequate protection.

#### **5. Fair and lawful processing**

5.1 The Act is not intended to prevent the processing of personal data, but to ensure that it is done fairly and without adversely affecting the rights of the data subject.

5.2 For personal data to be processed lawfully, they must be processed on the basis of one of the legal grounds set out in the Act. These include, among other things, the data subject's consent to the processing, or that the processing is necessary for the performance of a contract with the data subject, for the compliance with a legal obligation to which the data controller is subject, or for the legitimate interest of the data controller or the party to whom the data is disclosed. When sensitive personal data is being processed, additional conditions must be met. When processing personal data as data controllers in the course of our business, we will ensure that those requirements are met.

## **6. Processing for limited purposes**

- 6.1 In the course of our business, we may collect and process the personal data. - 6.2 We will only process personal data for specific purposes or for any other purposes specifically permitted by the Act. We will notify those purposes to the data subject when we first collect the data or as soon as possible thereafter.

## **7. Notifying data subjects**

- 7.1 If we collect personal data directly from data subjects, we will inform them about:
- The purpose or purposes for which we intend to process that personal data.
  - The types of third parties, if any, with which we will share or to which we will disclose that personal data.
  - The means, if any, with which data subjects can limit our use and disclosure of their personal data.
- 7.2 If we receive personal data about a data subject from other sources, we will provide the data subject with this information as soon as possible thereafter.
- 7.3 We will also inform data subjects whose personal data we process that we are the data controller with regard to that data.

## **8. Adequate, relevant and non-excessive processing**

- 8.1 We will only collect personal data to the extent that it is required for the specific purpose notified to the data subject.

## **9. Accurate data**

## **10. Timely processing**

- 10.1 We will not keep personal data longer than is necessary for the purpose or purposes for which they were collected. We will take all reasonable steps to destroy, or erase from our systems, all data which is no longer required.

## **11. Processing in line with data subject's rights**

- 11.1 We will process all personal data in line with data subjects' rights, in particular their right to:
- Request access to any data held about them by a data controller.

Personal data will only be transferred to a data processor if they agree to comply with those procedures and policies, or if they put in place adequate measures themselves.
- 12.3 We will maintain data security by protecting the confidentiality, integrity and availability of the personal data, defined as follows:

- Confidentiality means that only people who are authorised to use the data can access it.
- Integrity means that personal data should be accurate and suitable for the purpose for which it is processed.

This includes exchanging information with other companies and organisations for the purposes of fraud protection and credit risk reduction.
